

SUMMARY

Full Stack Engineer with experience leading cross-functional engineering teams in designing, developing and deploying robust web applications. Proficient in modern stacks including React, TypeScript, and Node.js, with some expertise in DevOps practices.

WORK EXPERIENCE

Skooldio Tech

Jun 2022 – Present

Software Engineer

- Led the technical design and feature development for a learning platform with 5,200 active users using React, Hono, TypeScript, and PostgreSQL.
- Managed a 3-person engineering team in a Large Scale Scrum to build and deliver the project with React, NestJS, and MySQL, ensuring high-quality, maintainable, and robust code.
- Automated smoke test flow for the company's Platform-as-a-Service project using Cypress, cutting manual testing time from 2 hours to 2 minutes per client.
- Actively participated in team efforts to drive code quality improvements and enhance software maintainability.
- Architected and delivered a custom WordPress solution from concept to launch, leading task delegation and technical mentorship for a junior developer.
- Enhanced product delivery speed as part of the Research and Development Team.

True Digital Group - Digital Health (Internship)

Jun 2021 – Dec 2021

Full Stack Developer

- Designed and developed a telemedicine system from customers' requirements from scratch
- Achieved customers' satisfaction due to simplification of the system
- Gained hands-on experience in developing front-end and back-end side for a website

EDUCATION

Chulalongkorn University

Aug 2018 – May 2022

- Bachelor of Engineering in Industrial Engineering
- GPAX: 3.51 (Second-Class Honors)

EXTRACURRICULAR ACTIVITIES & ACHIEVEMENT
